2. Requirements

2.1 Intersolar AWARD, ees AWARD and

The smarter E AWARD (Category: „Smart Renewable Energy“)

Eligible for submission are products and solutions e.g. the individual components of a product or technical innovation, which are or were on display at least at one of the exhibitions listed in the previous paragraph and/or represent a significant improvement of something previously presented at these exhibitions:

- have undergone industrial trials and/or are already in use,
- are judged to have particular innovative merit in technological and economical terms,
- create scope for cost reductions in production and/or sales and
- have the potential to make an important contribution towards satisfying industrial or societal needs.

2.2 The smarter E AWARD (Category: „Outstanding Projects“)

In the category „Outstanding Projects“ entries for projects, which meet the following requirements, will be accepted:

- Are exemplary for future applications
- Are unique in their expression and realization
- The projects must have been fully completed between February 2016 and February 2018.

Following a screening process by an independent panel of experts, the top entries in each AWARD/category will be nominated.

An independent panel of judges will subsequently choose the winners from the finalist in each segment.

3. Further Regulations

- Persons employed by companies or organizations with participating judges are prohibited from competing.
- Registration documents must be submitted in English and provide a clear and comprehensive representation of the product or project.
- The organizers pledge to distribute registration documents exclusively to people, including judges, who are directly involved with the competition. This group of recipients shall be obliged to protect the confidentiality of these documents. Notwithstanding of this policy, we strongly recommend that contestants take all appropriate measures to protect their intellectual property rights (e.g. by applying for patent or utility model protection) before the transfer or shipment of samples. The organizers reject any liability for damages resulting from a violation of the rights to any products submitted for the competition.
- In the case of submission of multiple applications from different applicants for the same project, only the first submission will be approved. Condition is the completeness and conformity of the submission with the terms and conditions of the AWARDS.
- By signing and submitting the application, participants agree that, in the event of their submission being nominated, their company name, the name of the submitted product/project, pictures of the submitted product/project and pictures of the company representatives attending the AWARD ceremonies may be used without restriction in reports made about the AWARDS (including press releases, websites, social media channels and marketing materials).
- As a condition of registration, your complete application must be saved in your personal account on the AWARD Portal → <https://award.TheSmarterE.com> within the designated application period.
- In the event of a win, a trophy and a certificate will be awarded to the participant who submitted the application. In the Outstanding Projects category, the Project Owner will also receive a certificate, even if they did not submit the application themselves as a participant.

SHIPPING OF SAMPLES

If you would like to submit samples to supplement your application, please send them latest by April 6, 2018 (delivery date) to:

Solar Promotion GmbH
Samples AWARD 2018
Kiehnlestrasse 16
